### Professional Summary

With over 15 years in software development, I've specialized in WordPress custom themes, headless CMS solutions, and web applications. My expertise spans diverse technologies, from building WordPress multisites with custom Gutenberg blocks to coding full-featured web applications. I'm passionate about delivering clean, functional code and always eager to innovate in new projects.

### Skills

- **Frontend:** JavaScript, TypeScript, Vue.js, React, GSAP, SCSS/CSS, Bootstrap, Tailwind
- **Backend:** PHP, Firebase (Firestore, Storage, Authentication, Messaging, ...)
- **CMS & Tools:** WordPress, WooCommerce, Joomla, Prestashop, Drupal, ACF PRO
- **Other:** Headless CMS (Strapi, Prismic, Sanity), Flutter

### Some Selected Projects

- **Starapple.ai (2024)**  
<https://starapple.ai/>  
Developed a WordPress custom theme featuring custom Gutenberg blocks and full theme customization options, allowing the client seamless control over content management.
- **VILO CRM (2023)**  
Built a CRM web app tailored for a law office. This project included features like inter-office chat, meeting calendar, user profiles, case management (Kanban task board, document management, signature workflows), and more.  
**Tech stack:** Firebase (backend), Vue.js + Bootstrap (frontend), Node.js
- **The TEFL Academy (2022)**  
<https://theteflacademy.com/>  
Developed a complex WordPress-based multisite with custom components, e-commerce integration, and geolocation features. Spearheaded the entire development from scratch, collaborating with a cross-functional team to enhance functionality over a 20-month period.

- **Edu4eco.pl (2024)**  
<https://edu4eco.pl/>  
Created a WordPress custom theme with custom Gutenberg blocks and complete translation readiness. The site has a complex structure, emphasizing usability and content flexibility.
- **Community Trust Index (2024)**  
<https://trust.communityengagementhub.org/>  
Built a custom WordPress theme for the Community Engagement Hub, integrating interactive data visualizations from Excel sheets to maps, statistics, and graphs.
